On the right hand side of the house is the sleeping area, with 3 bedrooms - the master bedroom includes an individual en-suite bathroom as well as a dressing room. The other two double bedrooms share a bathroom and all 3 bedrooms feature built-in wardrobes with sliding doors which are lined inside and include a luggage compartment, shelves and hanging bar. On this side of the house there is also a utility room with laundry area. Heating and domestic hot water is provided by atherothermal energy efficiency system with ducted air conditioning supplying the perfect combination of underfloor heating and ducted air conditioning combined with a ventilation system with mechanical extraction of the interior air through ducts from the kitchen and bathrooms to the chimney on the roof.
